FOLLOW-UP:

Give supportive care or treatment as needed.
Bait stations are mandatory for outdoor, above ground use. Tamper-resistant bait stations must be used in areas prone to vandalism, where livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism. Use only for sites, pests and application methods described on the label.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once. For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K preparations intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**IF SWALLOWED:**

Do not give anything by mouth to an unconscious person.

Have person sip a glass of water. Do not give anything by mouth to an unconscious person.

Call a poison control center or doctor for treatment advice. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**DIRECTIONS FOR USE**

Determine areas where rats or mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in or beside burrows, in or beside foundation crevices, in or beside trash cans, around air conditioning units, and in or around food preparation areas. If a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

For animal health reasons, do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean higher high water line. The application of this product to public bodies of water is prohibited.

This product may only be used to control Norway rats, roof rats, and house mice in and around homes, businesses, food processing and storage facilities, institutional and commercial buildings, and similar structures. This product is not effective against black rats. Do not apply this product to or near structures occupied by pets and livestock, or to structures where people or domestic animals will be exposed to the bait. Provide separate baiting areas for pets and livestock. Do not get in eyes, on skin, or on clothing.

Hazards to Humans and Domestic Animals

This product contains Bromadiolone (CAS #28772-56-7), Denatonium Benzoate, and other ingredients. When using this product, always follow all use and handling directions and precautions on the label.

Keep out of reach of children. Keep out of reach of pets. Do not get in eyes, on skin, or on clothing. Wipe up any spillage immediately.

**NOTE TO PHYSICIAN**

This product contains Denatonium Benzoate, a bittering agent. Contact your physician or local poison control center if you swallow this product. For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K preparations intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**NOTE TO VETERINARIAN**

For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K preparations intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times. In severe cases, blood transfusions may be needed.

**Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation.** Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing. Wipe up any spillage immediately.

**ENVIRONMENTAL HAZARDS**

This product is harmful to wildlife and is not to be used directly on or near any wildlife or habitat, including water bodies. Do not apply this product directly to or near areas where surface water is present or to intertidal areas below the mean higher high water line. It is illegal to apply this product to fields, pastures, lakes, ponds, streams, brooks, or any other water course, or to any area through which surface water drains, or to areas below the mean higher high water line. Applications to public bodies of water are prohibited. To prevent the potential for surface or groundwater contamination, do not apply this product near or adjacent to storm drains, ditches, or any other waterway. Do not apply this product to or near areas where surface water is present or to intertidal areas below the mean higher high water line. The application of this product to public bodies of water is prohibited.

**READ THIS LABEL:**

This product must be used as directed on the label. Use only for the purpose and in the manner described on the label. Read this entire label and follow all use directions and use precautions. Use only for sites, pests and application methods described on the label. Do not store this product with food, pet food, feeds for animals, or animal health products.
